REED "independence" — vs. B-70! (kill-us-jits!)

no need — vs. ~~current~~ bases (AS) (+ IRBOM)  
for B-2? (vs. too many, LBM, H&K)  
or, yes — not against Polaris  
SU S-T air (but...!)

minutes — (but: not for  
control) [D-L, FS (HR)]

Not just OK

It's AIA (Against Inertial Guidance)  
(still?)

for CW, miss, DM

GE, Westinghouse —  
(GM doesn't depend on tanks, pipes, etc.)  
avoided — it can compete in (also e?)  
international commercial market.  
& developments!

Subsiding — of buying plans (+ minutes)  
+ pushing R+D!

R+D  
Annual: keep scientists working for USAF  
like: keep more scientists (labs, testing)  
+ overnight preparations FU, CF...

for expansion in crisis (are we? no?)  
Right CW rate!
